

GLOBAL LEADERS PROFILE

MidWest Materials, Inc.

MidWest Materials, Inc. is a premier carbon flat rolled steel service center serving the metal needs of leading manufacturers across North America. The company celebrated its 60th anniversary in 2012 with the completion of a multi-million dollar expansion of its production facilities, which currently distributes hot rolled, HRPO, cold rolled and coated steel products.

The 240,000 sq. ft. warehouse near Cleveland, Ohio, USA, is home to the largest and most advanced Leveltek Stretch Leveling System in North America that uniquely provides unmarked, flat, memory-free steel over 5/8" thick and over 100" wide.

Brian D. Robbins
CEO
MidWest Materials, Inc.

The processing facility also includes corrective levelers, slitters, shears, on-site materials testing laboratory, direct rail access, a dedicated fleet of trucks, and is ISO 9001:2008 certified.

MidWest is honored to be named as a finalist in two categories of the 2014 Global Metals Awards – “Metals Mover of the Year” and “CEO of the Year”.

CEO Brian D. Robbins is the 3rd generation of the family owned and operated company thriving on the principles of quality, service, safety, innovation and dedication to long term relationships with vendors, customers, employees and the community. Mr. Robbins was recently named President of the international Association of Steel Distributors (ASD). For more information please visit www.midwestmaterials.com.
